1. The administrative headquarters of Object 2 are in the Kurhotel at Oberschlema. Chief of Object 2 is Colonel Turanov, assisted by Major Korree and one Vpifanov (sic, V. Pifanov?), Chief of Personnel, who arrived at Object 2 on 16 April 1949. Object 2 comprises the shafts numbered 4,6,7,12,14 and 15, and has taken over the ore dressing Object 33 housed in the Blaufarbenwerke Oberschlema and the ore dressing establishment adjacent to Object 99, which is also a mining object. The latest orders received in shaft 14 of Object 2 require only first grade ore to be mined. This occurs at the 90 meter level.
2. The yield of Object 2 for the period 15-29 April 1949 was 12,105 cases of unprocessed ore, and the yield of Object 9 for the same period less two days was 4,778 cases. The cases are 25 x 25 x 60 cm and hold about 50 kg. After final processing the ore is put into tin canisters 50 x 50 x 50 cm and shipped in Soviet trucks. One such truck is known to have taken the following route in one day: Blaufarbenwerke Oberschlema - Aue - Siegmarschönau - Chemnitz - Dresden - Stolpen (F49) - Czech border.
